Solutions for the Real World

Murphy USA – Merchant Portal

Murphy USA

Since 1996, Murphy USA has been the place people go to save on the gas that fuels their lives. From the lowest prices on gas to exclusive deals on popular snacks and drinks, we're always going the extra mile to help our customers buy smarter and drive farther.

Merchant Portal

The Merchant Portal application is a website that Murphy USA's merchant partners can use to order and download discount and value codes. Users can also receive order status, review invoices, and view existing codes. Murphy USA users can administer merchant accounts, and process merchant orders.

Code Request Workflow

Merchants request batches of discount or value codes. Requests are then routed through a workflow process to be reviewed by the merchant's finance department, Murphy USA's finance department, Murphy USA order fulfillment and, once completed, back to the merchant to download codes.

Business Value

Merchant Portal streamlines a process that is currently manual and labor-intensive, thus reducing labor hours and eliminating potential lost information, while providing a record

of the state of each request and allowing the merchant to access current information as well as past history.

Technology

Visual Studio 2013

.NET Framework 4.5.1

ASP.NET MVC

ASP.NET Web API

SQL Server 2012

Telerik Sitefinity CMS

jQuery

JavaScript

CSS

HTML 5
