

PDSA.com

Solutions for the Real World

PDSA, Inc.
Responsive Web Sites

Our main site was getting very busy, dated and was not working with mobile browsers. We undertook creating 11 new websites to replace our single website. We used a Bootstrap theme to create all the new sites. This gave us a fresh look and also allows us to support desktop, tablet and mobile phone browsers.

These sites can be found at the following URLs:

<http://www.pdsaservices.com>

<http://www.PDSAHaystack.com>

<http://www.pdsaframework.com>

<http://www.pdsadeveloperutilities.com>

<http://www.pdsaalm.com>

<http://www.pdsablogs.com>

The screenshot shows a web browser window with the URL <http://www.pdsaservices.com/>. The page features a blue header with the logo "PDSA Services" and a navigation menu with links for Home, Services, Purchase, About, and Contact Us. Below the header, the main heading reads "Need Help with your Business Problems?". A paragraph explains that PDSA develops custom business applications. A grid of six blue buttons lists common business problems: "Enable Mobile Devices For My Business", "My Software Is Out Of Date", "I Need Professional CIO/CTO Help", "Software Package Integration", "Is My Website and Data Secure?", and "I Want My Excel To Be A Web App". A text block below the grid states that PDSA helps cut costs and increase revenue, and provides contact information. To the right, a "Services" section lists various offerings in grey buttons, including "Build your Business, Not Software", "Your Personal CTO/CIO", "Upgrade your Old Technology", "Is your IT Staff Meeting your Business Goals?", "Solutions for your Business", "A Just-in-Time Business Partner", and "Best Hands-On Training". A "Products" section at the bottom right lists "Quickly Build Applications" and "Generate Application Code".

The screenshot shows the PDSA eBooks website. The browser address bar displays <http://www.pdsaebooks.com/>. The page features a blue header with the PDSA eBooks logo and navigation links for Home, Purchase, About, and Contact. The main content area is titled ".NET eBooks and Samples" and includes a brief description of the eBooks. Below this is an "eBook List" section with three items:

- Fundamentals of C# (VS 2010)** - eBook cover image shown.
- Fundamentals of Visual Basic (VS 2010)** - eBook cover image shown.
- Fundamentals of OOP (VS 2010)** - eBook cover image shown.

To the right of the eBook list is a "Services" section with several buttons:

- Build your Business, Not Software** - Application Outsourcing
- Your Personal CTO/CIO** - Virtual IT Services
- Upgrade your Old Technology** - Technology Migration
- Is your IT Staff Meeting your Business Goals?** - Reviews and Audits
- Solutions for your Business** - Industry Solutions
- A Just-in-Time Business Partner** - Mentoring
- Best Hands-On Training** - Training

Below the services is a "Products" section with one button:

- Quickly Build Applications** - Productivity Framework

Business Value

By making our sites easier to navigate on any device it allows us to service our customers much easier. We have also found our rankings on the search engines increased because each site references the other.

Special Features

We used our PDSA .NET Productivity Framework and Bootstrap to create these sites. This allowed us to create these site very rapidly.

Technology Used

Microsoft Visual Studio

ASP.NET

C#

PDSA .NET Productivity Framework

Twitter Bootstrap Theme
