PDSA
Solutions for the Real World

Application Outsourcing Services

Your Application...Done!

We have a unique method for software development and a set of tools that help ensure your software will be created on-time and on-budget. You get more features for a fraction of the cost that other software firms charge. Contact PDSA today and see just how we can save you time and money.

Why Choose PDSA...

PDSA develops custom business applications specializing in web and mobile technologies, enabling workflow management, operational efficiencies, and effective information management.

PDSA was founded in 1991 and since has successfully delivered advanced custom application software to a wide range of customers and diverse industries. With a team of dedicated experts, PDSA delivers cost effective solutions, on-time and on-budget using innovative tools and processes to better manage today's complex and competitive environment.

More Information

Call us toll-free at 888-899-PDSA (7372) and ask for Michael Krasowski or David Lefort. Email us at info@pdsa.com.

Build your Business, not Software

Your company is not in the business of software, yet software is needed for you to stay ahead of your competitors. Instead of you spending your valuable time and resources trying to develop great software, let us do it for you.

Our unique system for software development has resulted in 803 successful on-time, on-budget projects. Our expertise is available to you, at a lower cost than hiring staff. You will find that we are competitive with off-shore firms because of our unique tools.

We have perfected a system for designing, testing and implementing custom applications. Our unique system allows us to create your software application faster, better and at a lower cost than typical custom prices. Our applications run fast and do not have the bugs and problems typical of custom developed software.

Successful, On-Time Applications – Our Specialty

- A proven system for project management that guarantees on-time applications.

- Dependability and professionalism proven in 803 successful projects for start-ups and Fortune 500 companies.

- Technical leadership demonstrated in nationwide articles, webcasts, and one of the largest on-line subscriber communities in the development arena.

- Strong and reciprocal Microsoft relationship in sales and product development.
