

Your old applications will stop working...

Microsoft changes their OS every couple of years. They will not continue to support VB6, FoxPro and other old technologies forever. This means you need to start thinking about upgrading now rather than later. Let PDSA help you migrate to the latest and greatest technologies.

Why Choose PDSA?

PDSA develops custom business applications specializing in web and mobile technologies, enabling workflow management, operational efficiencies, and effective information management.

PDSA was founded in 1991 and since has successfully delivered advanced custom application software to a wide range of customers and diverse industries. With a team of dedicated experts, PDSA delivers cost effective solutions, on-time and on-budget using innovative tools and processes to better manage today's complex and competitive environment.

Are You Still Running Old Technology?

Do you have any of the following technologies that you need to get migrated to the latest versions?

- SQL Server 2008 or earlier
- Visual Basic 6
- FoxPro
- Microsoft Access
- Visual Studio 2008 or earlier
- Classic ASP
- Office Macros
- Windows XP to Windows 7 or 8

Do you have any of these older applications that are coming to the end of their lifecycle? Don't worry, it's not too hard, or too late to move those into .NET. Let PDSA help you with your migration process. We have successfully converted many applications from old technology to new technology.

Our **Technology Migration Services** follows the

Step 1: Assessment of your current technology, business requirements and IT skill set.

Step 2: Partner with you to develop a migration plan.

Step 3: Work side-by-side to help your IT staff come up to speed with the latest technologies.

Step 4: Implement your new technologies.

Step 5: Provide on-going support, as needed, for your organization to ensure you are continuing to meet your business goals.

Call us today to schedule your free assessment at (714) 734-9792 and ask for Michael Krasowski or David Lefort.
